

THE TAINTED SEEKER MISSION

Mini Adventures are made up of special magical beings called Seekers who help our explorers. Unfortunately one of them got infected with bad magic on their last mission and has been seen roaming Ljubljana in board daylight when they are supposed to be hidden and kept a secret. We don't know which Seeker it is but we have some eyewitness descriptions.

Can you find out which Seeker it is so we can reverse the bad magic based on the eye witness descriptions?

1. The Seeker wasn't wearing a hat and didn't have metal on their head.
2. The Seeker wasn't holding a creature.
3. The Seeker didn't have wings.
4. The Seeker had brown hair.
5. The Seeker had something around their neck.
6. The Seeker had something in their hair.
7. The Seeker wasn't wearing glasses.
